

# GARY REPORT

## More Coming To Light and Special Need

The second group of five who came to Caleb's home to express their repentance enjoyed a remarkable and valuable time together, and have now returned back to Nairobi—both groups changed and enlightened, confessing Bride. And another remarkable and welcomed thing about all of this is that two of them in the initial fifteen were from those in Busia who had first been put in jail. They had actually been bailed out, and now came to Caleb to repent. Blessed be Yahweh!

And let me tell you something else. You will recall that a pastor among the original fifteen revealed that Tom had been poisoned. They slipped the poison into his evening meal and he died that night. And, you might recall that this is what happened to Caleb's driver of the Bride car which was placed into service for income. In the April 14, 2018, "Gary Report," I noted: "just recently the man who was helping Caleb as the driver of the car they are using to generate an income suddenly died, supposedly from food poisoning (though it was most likely intentional poisoning). And here again, strangely, Caleb was accused of poisoning him and was once again placed in jail." Another thing that those men from Busia confessed to was that they did indeed place that poison into their food—for both of them—for they were eating a meal together! But, only one died—the driver. And Caleb not only did not die, but was not even affected by it! Of course we are reminded of Mark 16:18 where Yahshua declared, "if they drink any deadly *poison*, it will not hurt them." Caleb could not die that day. He is a Rebekah to me.

Again, right now is a most remarkable turning point, and I sincerely hope it testifies to the spiritual realm wherein the ruler of this world, who abides in darkness and has the power of death, like Haman is losing his power and authority and his place. This is absolutely critical! And the transformation of these nineteen after so much misunderstanding concerning the Bride work, as well as their vengeance, is most hopeful regarding what lies before us—our August Rongo Bride conference celebrating its twenty-fifth anniversary. It was on August 7, 1994, that the Bride began with my confession that I was no longer a Christian. They are expecting six or seven thousand in attendance. And at some point when we receive the latter rain outpouring of the Holy Spirit, the Bride will shake the world! We the Bride always look for and hope for the latter rain, which is essential for the return of Immanuel.

Now for a matter at hand. One of the things facing the Bride right now is much needed work on the Bride car. The car is essential for their transportation as Caleb works with pastors in unifying the Bride, which is growing all across Kenya. Recently he was meeting with Nazarene pastors in Homa Bay, and with excitement told me that of the thirty-eight Nazarene churches there, twenty-seven had converted to Bride. But I am not surprised, for when I was in Kenya in January, all of the hearers rejoiced greatly. Again, Yahweh is calling His bride out of Africa. "The King has brought me into His chambers. ... I am black and beautiful" (Song of Songs 1:4-5).

This is just one example of how critical that car is for the Bride work. Mobility and face-to-face contact are essential. So what is the problem with the car? The motor is shot and has to be replaced. I was talking with our mechanic, Ogeda in Kisi, and he said they can get a new engine for \$3,000. A rebuilt engine is close to being the same amount. Additionally, he said the other things like oil and coolant and other such items comes to \$200. Ogeda said they will do all the work for us at no cost since they believe in the Bride. So, the total cost will be \$3,200. With this work the brothers can then continue their essential labors as we plan for August.

If you want your gift to be specifically for this purpose, then designate it for such. There are always other needs and expenses, but I want to make sure this motor replacement is done, and hopefully soon. In fact, I would hope you could make a special gift for this special need.

I was going to wait and save up for the \$3,200, but Ogeda insisted that the need is too great to wait and we needed to get started on this right away. Plus, he said it is too costly for Caleb to use public transportation by delaying this. I certainly learned this three years ago when I was there. That is why we got the car in the first place. Ogeda is also going to secure the new engine on his account with his supplier and try to extend it out until we can have it paid for. The balance is now \$2,900. For a new motor installed, this is an excellent price! So, I accepted what he was urging and here we are.

Can you help? We need to pay this off as soon as possible.

Thank you and blessings,

Gary
