## March Is Like May

Ever since the disturbing [sixth trip](#) we made to Kenya in last November/December, we have made plans to return there for the fulfilling seventh trip. And though we have longed to return, COVID has deterred us. We made plans for an early March teaching, but then had to extend it out to April 1. But even then, COVID has continued to derail us. Now, they are saying that the restrictions and limitations will cease in May. So, that is what we will now plan for. And now looking back, we can see, hopefully, what the Father is doing.

I had really hoped for the testimony of April 1, for that was the date when our fifth child was born when Yahweh miraculously [reversed her breach condition](#). But actually, we need a more complete testimony than that, even more specific, and have not seen such until now. Let us see this.

On February 16, 2017, I posted a podcast titled “March Is Like May.” To listen to it, [click here](#) and scroll down to “March Is Like May.” Steve Jones notes that while September is the ninth month, the word “September” actually means seven (septem). Likewise, “October” means eight, an octagon, yet it is the tenth month. And closing the year, “November” and “December” respectively mean nine (novem) and ten (decem). Thus, Steve notes that there is a prophetic message in this unique calendar sequence, specifically being that March is like May. In other words, March is actually a representation of something significant that will occur in May, which is most timely for us right now.

What we learn here is that, relative to where we are at this time, March foreshadows that which will take place in May. In truth, March is a preceding first Remnant testimony, while May is the second Remnant fulfillment. And as well, this is exactly what we are seeing unfold at this time—that what was hoped for and are in part experiencing in March, will take place in full in May. And, this is in fact the passing over principle—the Father passes over the first (March), He passes over the second (April), and He takes the third (May). And, we did not at all plan this course, but through COVID and the Kenya government, the Father ordered it.

And more specifically, one would ask what has happened in March, which would point to and even find fulfillment in May? Very significantly, in March a Bride brother has done exactly what they did in the first Remnant with the former rain. They sold their land and houses and gave the money for the benefit of the whole. Likewise, this month this brother sold his home and gave the entirety of the profit to the Bride, and it was no small amount! (And, there is another Bride brother who is moved to do likewise.)

Unbeknownst to this brother, and even myself, it is evident that in March he was marking or foreshadowing a first Remnant work, allowing or even ordering the beginning of the second Remnant work in May. March is like May, and we should see

the continuation of the former, but now with the latter rain work. And appropriately, I was with that brother for a month and a half, preparing his house for sale. And even now he is preparing to give even more, being a first Remnant in every regard. This is a significant and highly noteworthy March beginning!

So what can we expect in April? Attesting to breach Christianity, it is passed over, leading to and affording the way for the second Remnant May work. As in the ways of Yahweh, He passes over the first (the first Remnant), He passes over the second (Christianity), and He takes the third (the second Remnant). And so we take hope that He passes over March, He passes over April, and He takes May, and thereupon we receive the much-needed latter rain! And the timing of this is entirely His work, of all things using COVID and the Kenya government to set it in order.

Therefore, what we hoped for in 2017 could well have been a first bird that had to die/fail, so that we can find success/fulfillment today. And speaking of May, [click here](#) and you can read some most telling facts regarding the eruption of Mount St Helens on Sunday, May 18, 1980, including a unique and compelling testimony regarding my wife's and my birthdays.

We look to the Father to complete and fulfill all that He has shown me since that life-altering experience beginning in June, 1994. May He be glorified. Amen!

Gary
